

Summer University

2018

Nortal Summer University

Ditch the training wheels. Expect real work experience.

It's an exceptional program for exceptional students from Estonia, Finland, Lithuania and Serbia. Nortal's Summer University propels your internship far beyond traditional education, launching you straight into real-world IT projects.

Remember, this isn't just sitting with your nose in a book! After a week of theory and training, you will be working with real projects and real customers.

Kick-start your career in IT and become a...

System Analyst

Full-Stack Java Developer

QA Specialist

Who are we looking for?

If you...

- like to envision the future and make others see it too
- feel the desire to understand the true needs of people and businesses
- want to make things clearer, faster and more convenient
- are happy to be the translator between business and technology
- shine while presenting your brilliant ideas to various people

...then become a **System Analyst!**

If you...

- like creating life-changing systems out of just characters and spaces
- feel excited about materializing the ideas others only dream of
- seek constant improvement in your skills to make the magic happen
- understand the structure and building blocks in IT systems
- want to take pride in crafting the e-future

...then become a **Full-Stack Java Developer!**

If you...

- naturally become suspicious if something is too good to be true
- excel at motivating people to improve anything and everything
- skilfully build and share a systematic big picture for other people
- adeptly ask many questions to discover the true essence of things
- are patient with both error-prone people and programs

...then become a **QA Specialist!**
